Problem-solving, Teamwork, communication, critical thinking, attention to detail, fast learner

CERTIFICATIONS

Google Data Analytics

EXPERIENCE

MSC Cruises | Revenue Management Intern 2026 - Present

- Automated recurring commercial reporting with Python, generating presentations and consolidated Excel files directly from data, reducing preparation time by 70%.
- Contributing to the migration of reporting workflows to Databricks, building and maintaining data pipelines on the platform.
- Developed a tool to track competitor search trends and produce recurring market reports.
- Building an interactive dashboard to analyze port accessibility using transport and connectivity data.

ARA Association | Tutor 2023 - 2025

- Provided personalized support in English and IT (Python, networking) for 3 to 5 students per week.
- Designed teaching materials adapted to each student's level.
- Tracked progress and adjusted methods to improve results.

Collège de Drize | Administrative Assistant 2020 - 2021

- Managed reception, daily administrative tasks and student records in a bilingual (French/English) environment.
- Maintained accurate data in Excel and Word, and coordinated large-scale email campaigns to students and parents.

PROJECTS

Bachelor Thesis – Generative AI for Competitive Map Design

- Developed a hybrid pipeline combining procedural generation, machine learning (Random Forest, genetic algorithm, PPO) and evolutionary optimization for Counter-Strike maps.
- Built and validated a dataset of 230 maps and automated generation of valid layouts in under 10 minutes.

Mobile Communication App for Firefighters of Plan-les-Ouates

- Developed a full-stack mobile app for 30+ users with PHP/Laravel, JS/CSS and a secure MySQL backend with token-based authentication, working in an Agile Scrum team.

EDUCATION

Bachelor of Science in Business Information Systems

Haute école de Gestion de Genève (HEG) March 2026

- Studied Business Information Systems at HEG Geneva, with a focus on information systems, databases, programming, networks, and business analysis.
- Completed projects in UML modelling, systems administration, and mandatory professional projects.
- Strengthened both technical and analytical skills.

Maturité professionnelle commerciale (3mp+1)

École de commerce Aimée-Stitelmann September 2021

- Completed specialized courses in office computing, economics, management, and accounting.
- Completed a two-week professional internship at Espace Entreprise.
- Followed reinforced language courses in English, German, and Italian.
